

# HELLFIRE AGM-114R9X MISSILE

BY: JOCELYN CHACON, KYLE HUO, MARILYN LEMUS  
GUTIERREZ, NIYAH ST. ONGE, AND RIDWAN SALEH

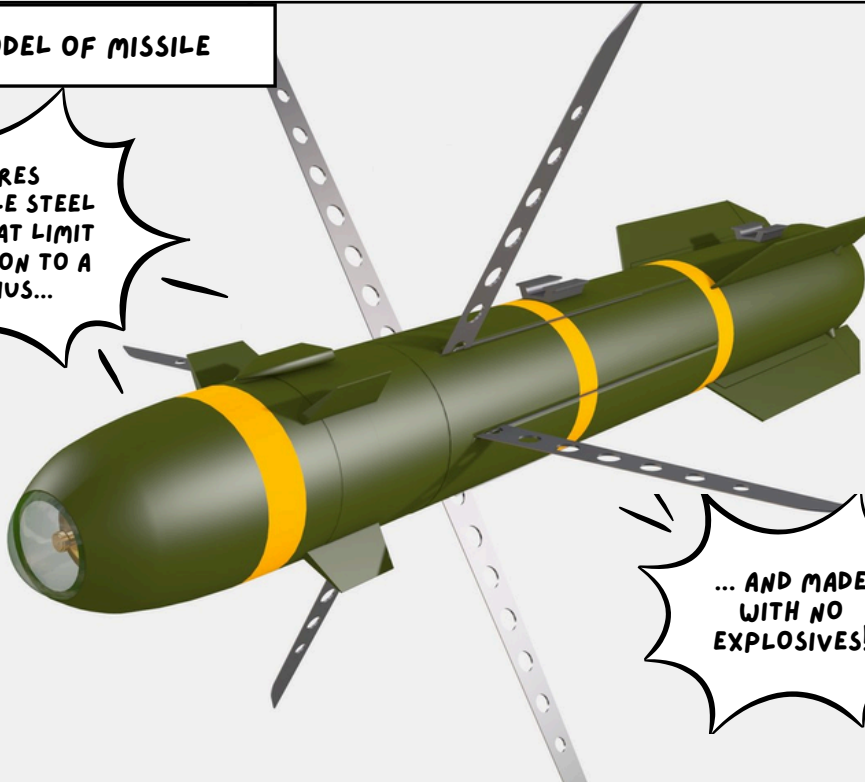

**INTRODUCING  
THE AGM-  
114R9X  
HELLFIRE  
MISSILE**

WE NEED  
SOMETHING MORE  
PRECISE!

The AGM-114R9X is a military missile developed during President Obama's term in order to reduce collateral damage and avoid unnecessary casualties.

**3D MODEL OF MISSILE**

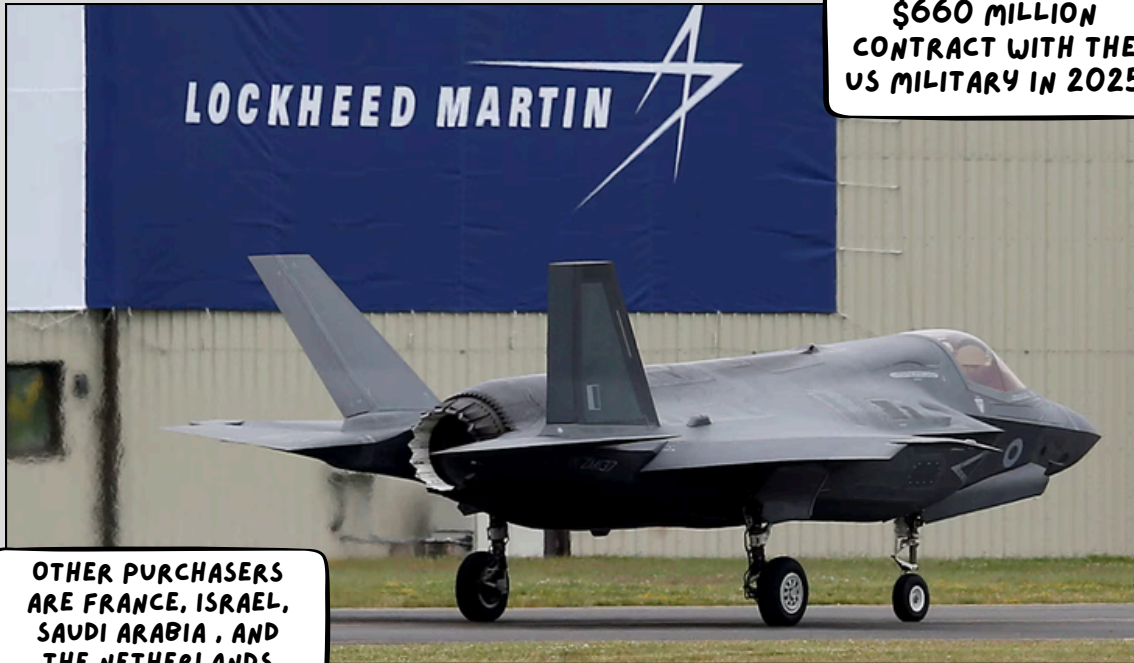

FEATURES  
DEPLOYABLE STEEL  
BLADES THAT LIMIT  
DESTRUCTION TO A  
1M RADIUS...

... AND MADE  
WITH NO  
EXPLOSIVES!

**ALSO KNOWN AS  
THE "NINJA BOMB",  
"KNIFE BOMB, AND  
"FLYING GINSU".**

The R9X is made to target specific individuals without injuring other people in the surrounding area.

**\$660 MILLION  
CONTRACT WITH THE  
US MILITARY IN 2025**

**OTHER PURCHASERS  
ARE FRANCE, ISRAEL,  
SAUDI ARABIA, AND  
THE NETHERLANDS**

Lockheed Martin's Missiles and Fire Control division, owned by institutional investors, is the producer of the AGM-114R9X as well as other types of Hellfire missiles. Their biggest client is the United States Department of Defense.

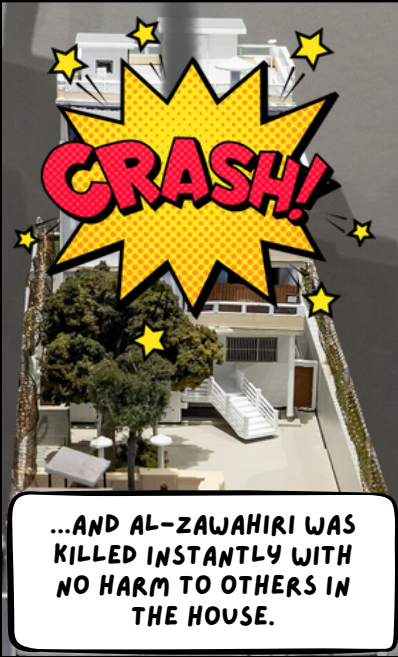

Lockheed Martin primarily produces its missiles in facilities located in Dallas TX, Orlando FL, Ocala FL, Archbald PA, and Troy AL. The Cape Canaveral Space Force Station in Florida is the main testing site for these missiles.

**JIM TAICLET  
(PRESIDENT AND CEO  
OF LOCKHEED MARTIN)**

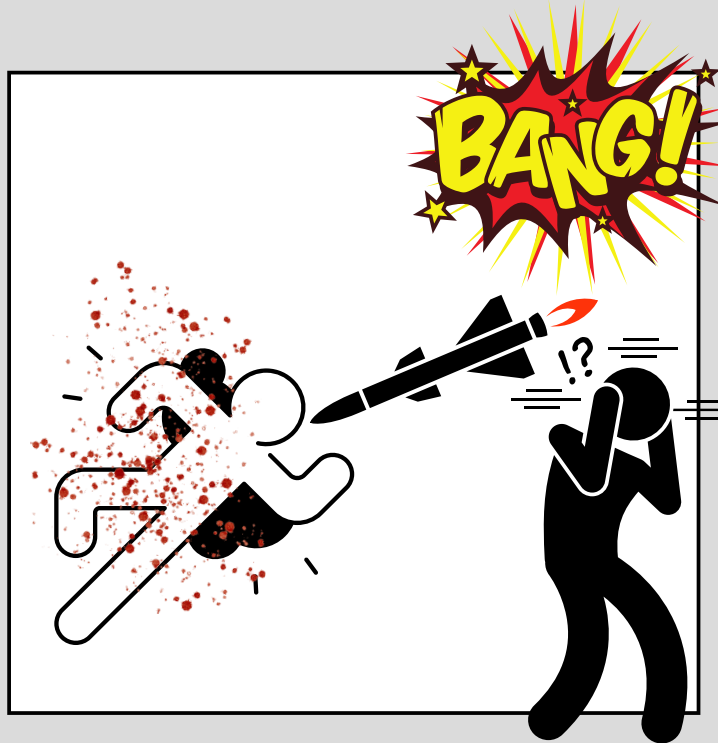

The AGM-114R9X was used by the US government to assassinate certain high-profile figures, such as al-Qaeda leader Ayman Al-Zawahiri in 2022.

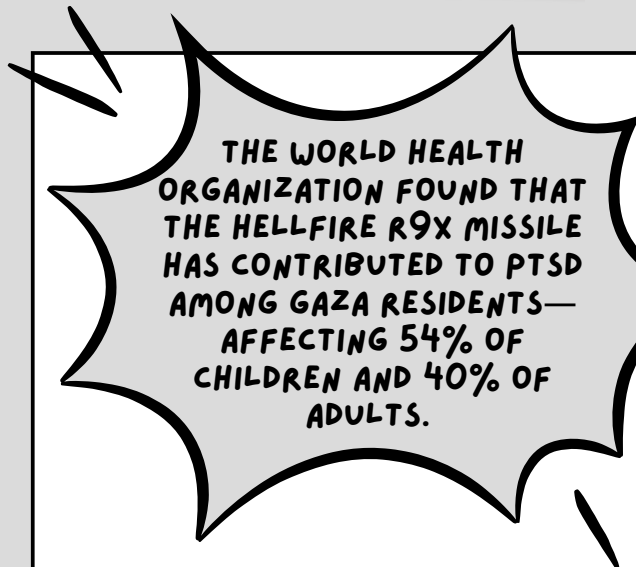

The R9X has been used in many other attacks, though information about it is scarce. It is speculated that Israel used it to assassinate Hamas leader Ismail Haniye in Tehran in 2024.

Pilots have reported “feelings of guilt and blame” after realizing the missile still harmed civilians, despite its reputation for precision.

Although praised as an ethical advancement in warfare, the Hellfire R9X provokes psychological trauma and health issues amongst civilians illustrating its harmful impact. Although the weapon is 'precise' in nature, it holds the same moral weight as other dangerous weapons of war.

The Hellfire R9X missile concentrates power in the hands of world leaders to authorize remote killings with little oversight. The reputation of the missile provides a moral cover to justify this selective use of force against opposition.
